

WSHA Student Weekend Speakers

Saturday Conference

Erica Scheifflee, MS, CCC-SLP/Developmental Coach

New Berlin Therapies

AchieveAbility Developmental Coaching

www.AchieveAbilityDevelopmentalCoaching.com

Emily asked that I respond re: lunch as well. I am more than happy to stay and chat with students I am also interested in attending other sessions on either Friday or Saturday as offered in Emily's email I would be fine sharing my personal email address erica@achieveabilitydevelopmentalcoaching.com

Katherine Frontier, MS, CCC-SLP, C/NDT

Pediatric Speech Language Pathologist

Masters Family Speech and Hearing Center

Children's Hospital of Wisconsin

414-266-2056

M, T, R, F

Katherine Frontier is the primary speech/language pathologist at Children's Hospital of Wisconsin's level III-C NICU, following medically fragile infants with multiple medical issues and complex feeding and swallowing problems. One of her primary areas of focus is treating infants with congenital cyanotic cardiac disease.

Katherine is a member of the FEES clinic in the airway and digestive center at CHW. She is certified in Pediatric Neuro-Developmental Treatment, and emphasizes communication, positioning, sensory modalities, and handling in her treatment of children with dysphagia and communication related issues.

She has lectured nationally on infant feeding, the implementation of a cue based feeding program in the NICU and the impact of vocal fold immobility on infant swallowing. Her research focus is the effects of vocal fold immobility on infant swallowing.

Katherine graduated from the University of Wisconsin – Eau Claire and received her Masters degree from the University of Wisconsin – Milwaukee. Prior to Children's Hospital, she worked at Penfield Children's Center's early intervention program

“Are you going to teach my baby to talk?”

-A speech pathologist's perspective of the NICU

Possible:

In regard to Linda Kliebhan, I would suggest contacting her at lindakliebhan@yahoo.com or at 414-861-1951. I am not sure what her schedule is like in October but it would certainly be worth asking her. Another pediatric PT you could ask is Leslie Paparsenos who you can contact at lesmos1@hotmail.com. If you are looking for an OT, you might want to contact Carol Wingenter at enterwing@aol.com or at (262) 783-9863 or Chris Cayo at cayointosa@sbcglobal.net.

Michael VanLue, PhD, CCC-SLP is a Program Specialist in the area of Craniofacial Disorders/Cleft Palate Research at the Master’s Speech and Hearing Center, Children’s Hospital of Wisconsin. Dr. VanLue has over 13 years of clinical experience serving children (and adults) born with craniofacial anomalies. He received his training at the South Carolina Center for Craniofacial Anomalies during his Master’s degree and PhD programs at the University of South Carolina. Prior to coming to CHW, Dr. VanLue was an Associate Professor at Appalachian State University and previously taught at the Medical University of South Carolina and Radford University. Since 2000, Dr. VanLue has served on 13 international missions

to the Philippines, Peru, Ethiopia, and China; seen over 3000 patients with cleft lip and palate in developing countries; and currently serves on the Operation Smile Speech Pathology Council. He currently conducts research and serves patients with speech and resonance disorders through the Craniofacial/Cleft Palate Team at CHW and internationally through Operation Smile.

Title: Assessing Velopharyngeal Function For Speech

* Learner Outcomes:

Learn basic types of clefts and typical timeline for surgical treatment.
Understand adequate velopharyngeal function.
Understand velopharyngeal dysfunction.
Become familiar with assessment of velopharyngeal dysfunction.
Understand basic treatment options for medical management of velopharyngeal function.

If time allows:

Learn basic guidelines for articulation therapy for a child with velopharyngeal dysfunction.

Tracy has been a member of the Cleft Palate Team at Children's Hospital of Wisconsin for 13 years. She has experience not only with children with cleft lip and palate and related syndromes, but also, with children who exhibit early speech and language disorders, autism, and cognitive disabilities. Past experiences include: Birth to three evaluation and treatment, working with adults with cognitive disabilities in a sheltered workshop, and the geriatric population. Tracy received her Bachelor of Arts from University of Wisconsin – Madison in Communication Disorders, and Master of Science from Marquette University in Speech Pathology and Audiology.

Leah Hein
Campus Manager Milwaukee Market
Kaplan Test Prep & Admissions
email: leah.hein@kaplan.com
Skype: leahbhein
262-408-8361

My name is Leah Hein and I am Kaplan Test Prep's Campus Manager for Milwaukee. I received your email and would love to be a part of your conference on October 15th. There is however a slight conflict we are having our National Practice Test (includes GRE, MCAT, LSATetc) at Marquette that day from 10 am- 12:45 and having a scores back session from 3:30- 5:30. I would be able to provide you a Kaplan expert GRE teacher from 1-3 if that would work in your schedule for the day- 1:30 to 3:30 may be cutting it close in case students have questions afterward for our teacher to get back to our session. Would that work for you? Also I am not sure what you have planned, but your conference attendees are most welcome to come take a practice GRE with us that same day as well if you wanted to build that into your schedule as well. I am sure you have things planned but I wanted to offer it up as a suggestion, we would be more than happy to offer it to your group.

Thank you for reaching out to us again about your conference. Please let me know if the schedule change would be possible and if you are interested in the practice test aspect.

Todd C. Campbell, Ph.D., President
The Bridge Health Clinics and Research Centers

“Enhancing Motivation For Change: Handling Resistance”

Participants will:

Be introduced to the Transtheoretical Stages of Change Model and corresponding types of intervention strategies

Be introduced to the basic principles and strategies of Motivational Interviewing and corresponding strategies to handle resistance to change

Feel free to reword/revise the learning objectives to fit the format you need.

Basically I need computer/projector for powerpoint presentation and ability to play DVD examples.

Alyson Isaksson, B.A., Marquette University
M.A. student in Theological Ethics, concentration Healthcare Ethics, Marquette University
Ethics Intern at Columbia St. Mary's Hospital System, Milwaukee, WI
alyson.isaksson@marquette.edu

As an undergraduate, Alyson was interested in ethics, philosophy, theology, and their intersection in healthcare. During her senior year at Marquette, her interest in bioethics peaked during an internship at the Medical College of Wisconsin Center for Bioethics. The following summer she began working as an intern in healthcare ethics at Columbia St. Mary's and has pursued a career in healthcare ethics ever since. In 2010, she returned to Marquette as a graduate student in theological ethics and is currently pursuing admission to a doctorate program in healthcare ethics. Her interests in healthcare ethics include healthcare access and disparity, concepts of personhood, Catholic identity in healthcare, and ethics consultation methodology.
